ATIC FORM 329 (REV 26 SEP 52)

LOS ANGELES OFFICE OF INFORMATION SERVICES

PUBLIC INFORMATION DIVISION

OFFICE, SECRETARY OF THE AIR FORCE

6085 Sunset Boulevard

Hollywood 28, California

Madison 5-7411 Ext 301

3 January 1958

Colonel Mitchell  
Air Technical Intelligence Center  
Post Office Box 378  
Pasadena, California

Dear Colonel Mitchell:

On 30 November this office received a call from Mr. ██████████ of ██████████, Los Angeles 22, California, reporting he had sighted several unidentified flying objects on the previous day over his neighborhood and further that he had photographed the objects with his personal 8MM motion picture camera. He was most anxious to cooperate with the Air Force and stated he would turn his exposed roll of film over to this office for processing as soon as he finished exposing the roll that same afternoon.

We established a time for pickup, assigned A3/c Fred Stull from this office to drive to Mr. ██████████ residence and brought the 8MM roll of Eastman Kodachrome film to the office for processing. Since there are no local Air Force facilities for handling 8MM color, we decided to have the film processed through regular commercial facilities available through Stern's Drug Store at Sunset and Gower. I turned the film in in my name and after approximately two weeks for normal processing I picked up the film. The film had no extra processing or handling and we know of no reason for Mr. ██████████ to mislead or fake the filming of the objects.

For your information, inclosed are drawings made by his three children who observed the same objects. Mr. ██████████ has called my home several times and discussed

the film with me and he was quite surprised and happy when I told him he did have several good shots of the unknown objects. We are presently awaiting return of the original film from Wright-Patterson Air Force Base, which will then be returned to Mr. Benn.

Mr. [redacted] is to be commended for his handling of this situation and for his sincere wish to be of service to the Air Force and his country by reporting and filming unknown flying objects. We in this office are grateful for his efforts. The quality of the film as to exposure and color balance seemed to be of excellant quality and the photography was well done on a most difficult subject.

If we can be of any further assistance in this matter, please call on us.

Sincerely,

Incls  
a/s

RICHARD G. SCHALLER  
Captain, USAF  
Chief, Pictorial Branch

DISPATCHED

ATLIC

January 30, 1958

Captain Schaller  
Pictorial Branch, USAF  
6085 Sunset Blvd.  
Hollywood, California

Dear Captain Schaller:

Here is the report you requested in our last telephone conversation. I believe it to be accurate and complete....

On Sunday, Dec. 1, 1957 at approximately 3 P.M. my wife and I were in our home in Montebello, when our eight year old boy [redacted] and J. [redacted], one of the twin girls (age 13) living across the street came in the house screaming "flying saucers, flying saucers"! I ran outside but the objects were nowhere in sight. I assumed by their actions that they had indeed seen something unusual, so I ran back in the house, grabbed my 8mm movie camera, in the hope that whatever they saw would return. At this point, the other twin [redacted], hearing the commotion, joined us on the sidewalk. [redacted], the twins older sister, and several adult neighbors also witnessed the following:

We were intently searching the eastern portion of the sky where the objects were last seen, and suddenly I saw six U.F.O.'s in obvious formation, moving rather slowly in a westerly direction just slightly north of our position, maintaining a constant speed and direction until they disappeared in the west. Fortunately, it was a beautiful day, the sky a lovely blue. While I was taking the films, some branches of a tree (no leaves this time of year) appeared in the viewer. This incident was later termed "very fortunate" by Capt. Schaller, Chief, Pictorial Branch, USAF.

The objects appeared oval shaped, and the color a soft white. I suppose it could be described as a soft white light. It did not appear to me to be the type of light reflected from shiny metal. This is the best verbal description I can give.

As soon as the objects disappeared, I phoned the E.L.A. Sheriff's Dept. They advised me to phone several others numbers which proved to be a waste of time....no answer on Sunday.

At this point the kids came running in the house again, very excited, yelling "they're back"! I ran outside, but was too late. The kids said that the formation had changed pattern again, and that this time they went over "very fast". Altogether, the kids saw three passes; ~~west to east, east to west, and back again to disappear in a general southeasterly direction.~~

After the excitement had died down, I separated the kids and had each of them draw a diagram of the formations, numbering the passes 1, 2, and 3. I saw only the second pass, ~~but I was not able to describe~~

why? Little - reversal of directions,

FEB 7 1958

Sgt. Any report from 7th Area and time from radar units, air operations etc. Check cameras Go & brought. Someone else has seen Broad seas. Negatives. ~~not this~~

and am forced to rely on the children's discription of the first and third formation patterns. I'm sure the following is correct:

1. A rather tight three-quarter circle.
2. Grouped in two's and arranged in a slightly elongated triangle.
3. A straight wing formation.

Having no success at my first attempt on the phone, I decided to phone the operator. Taking the risk of her thinking me a lunatic, I explained the whole story, and asked to be put in touch with someone in the Air Force. She came up with the number of a Capt. Shapiro. He referred me to Captain Schaller. He was very courteous and seemed interested. Hoping to eliminate any possible charge of fraud, I told him that I would rather let the Air Force develop the film. A couple days later an enlisted man stopped by the house, picking up the sketches and the undeveloped film.

About three weeks later I again talked to Captain Schaller, and he seemed well pleased and even a little excited, and he said the films were of "excellent quality", and the best UFO's he had seen. He added that a rather well-known officer by the name of Colonel Dean Hess was ~~excited~~ about the films, and that he would call me.

Colonel Hess called the next morning and complimented me on the manner in which I had handled the situation, and said in his opinion the films were the best UFO's that he had seen, including the films used in the movie U.F.O. Col. Hess told me the original film was my property and would be returned to me. He added, "I have taken the liberty of sending the films back to Wright-Patterson AFB where they have the facilities to analyse and make copies of the film". He also stated that ~~he~~ he had phoned the Pentagon and the Air Chiefs of Staff were doubly interested in viewing the film, especially when they discovered that the person that had taken the pictures had not yet seen the results. (I still haven't as of this date). In a subsequent conversation with Col. Hess, he said I would also receive a 16mm copy.

I have told my story to various friends. When some of them doubted my story, I phoned Capt. Schaller, asking for a letter of acknowledgement to prove my story. Three days later I received in the mail a copy of the report Capt. Schaller had sent to a Col one<sup>l</sup> Mitchell, Air Technical Intellegence Center, Box 378, Pasadena, Calif

*Here goes*  
*against*  
*the*  
*stats.* One shocking note was pointed out to me by a ~~civilian~~ investigator who alleges an Air Force "policy of secrecy". He referred me to the official orders titled JANAP 146. Also AFR 200-2 and official instructions to personnel of the CAA based of JANAP 146. This latter order applies to civilian airline pilots who report UFO's officially, on a communications system known as CIRVIS---Communications Instructions for Reporting Vital Intelligence Sightings! Why all the secrecy if UFO's are explainable phenomenon?

*Suggest analyze  
to Wash. D.C.  
bring in "high  
Police".*

It is my understanding that it is AF policy to vigorously investigate all "good" UFO reports. Almost two months have past and the only person ~~km~~ that has bothered to investigate me was a flying saucer enthusiast.

It is also my understanding that it is AF policy to send a detailed questionnaire to all people making a "good" report. Where's mine? If they wait much longer, the report will probably be classified as of "doubtful value" or similar double-talk.

In conclusion, I would like to point out that many civilian and military pilots, radar men, control tower personnel, scientists, astronomers, and ordinary citizens like myself have made these reports. The officially AF policy to date has been to ridicule these observations, explaining them away as weather balloons, meteors, mirages, mock suns, planets, reflections, weird cloud formations, etc. \* This stock answer is both imprudent and inaccurate. It is certainly insufficient to explain the agility of the UFO's we saw and photographed. Who ever heard of weather balloons flying in formation? The objects we saw traversed the sky THREE TIMES, from horizon to horizon, maintaining a different formation pattern with each pass. This sighting is dramatic evidence supporting the argument held by many competent observers that there is intelligent control.

Hoping this report to be of value....

Sincerely,

[REDACTED]  
[REDACTED]  
[REDACTED]  
[REDACTED]  
Los Angeles, 22

\* It's obvious that this man submitted his (alleged) UFO film with premeditated ~~clip~~ on his shoulder and, obviously, itching for a fight with the air force. His mind was already made up before he wrote his report. Objects can't have been engulfed, caught in one place!!!. General story - They go way out of their way for publicity for an argument. Wish we could let him spend a day with Consortium & Air Research to see what real UFO research is all about.

4 February 1958

REPORT OF INTERVIEW WITH MR. ██████████

On 31 January 1958 Mr. and Mrs. ██████████ called at my home to pick up the 8mm film which they had loaned this office. We had finished duplication of the film at a local color film lab and the original 8mm film was returned to Mr. Benn.

I examined his camera, an 8mm Keystone Capri K28  $1\frac{1}{2}$ " F3.5 telephoto lens Tiffen Photar 85 series 21.5mm.

The film used was Kodachrome Indoor Type A shot outdoors with a type-A filter. The distance setting was on infinity and shot at 16 frames per second.

I asked Mr. ██████████ the following questions:

Q. What is your estimate of the altitude of the objects which you photographed?

A. About the same height as the light airplanes  
see  
which I frequently/fly over the house, between 3000 and 4000 feet.

Q. Were they at any time as high as jet aircraft which make vapor trails?

A. No, definitely not.

Q. Did you see any smoke trail or any kind of trail from the objects?

A. No there was no visible trail of any sort.

Q. What was the direction of flight?

A. The first pass sighted by the children came from the West and went in an easterly direction.

Q. Were they in any sort of formation?

A. Yes, a very close or tight formation in a 3/4 circular formation.

Q. At what speed, compared to a light plane passing over?

A. About the same speed, maybe a little slower.

Q. What direction was the second pass?

A. They came from the East heading West in an enlarged formation, split into pairs, with the point of the V formation to the right side of the formation.

Q. What was the speed of this pass?

A. About the same as the first pass, slightly slower than a light airplane.

Q. What about the third pass?

A. This pass was not photographed, but the boy said they went over in a straight-line formation, opposite the viewers position at a very fast speed, at about the same altitude.

Q. What were the size of the objects?

A. That's hard to say.

Q. Would you say they were as big in circumference as a circle inclosing the wing tips and tail to nose section of a light airplane?

A. Yes, about that size.

Q. Were they all the same size?

A. Yes.

Q. What shape?

A. They were circular, and relatively flat.

Q. What color?

A. Sort of white-blue-green glowing objects.

Q. What do you think they were?

A. I don't know, but they were certainly not balloons or airplanes like any I had seen before.

(This concluded the main portion of the interview.

Mr. [REDACTED] is in the process of moving to a new business in northern California. Any future contact can be addressed to him at [REDACTED], [REDACTED]

[REDACTED], Redding, California.)

RICHARD G. SCHALLER  
Captain, USAF  
Chief, Pictorial Branch

*Benn Case*  
At 15 Jan 1958

April 29, 1958; St. Paul, Minnesota:

A UFO similar to the one reported in the east on April 21 was sighted by control tower operators at Wold-Chamberlain Airport and by other observers. The CAA men said the UFO did not resemble a meteor or any other known object but that it moved west to east at high speed on an even path without climbing or descending. It was described as emitting sparks from its glowing nose before its abrupt disappearance. The UFO also was seen by NICAP member H. T. Sherman, insurance underwriter and astronomer, who reported it to an Air Force Captain Nueman at Wold-Chamberlain. The captain first suggested Venus, which Sherman as an astronomer quickly ruled out. The captain then suggested a meteor.

"Too slow," stated Mr. Sherman. "A parallel path and the UFO's apparent rate that out."

Finally Captain Nueman suggested a new anti-collision light on a plane, but Sherman pointed out these items:

• When the light went out no plane was visible in the sky which at 9 p.m. was still fairly light.

• He would have heard any aircraft.

• No pilot in his right mind would approach a field with such heavy traffic at such high speed and suddenly at low altitude turn out all lights.

The Air Force captain had no other suggestions and the sighting was officially recorded.

From a NICAP member in the USAF we have received the following unclassified items from a 1957 UFO report:

In late December at a Joint Operations Control Center outside the United States observers of the USAF and a friendly foreign power witnessed by telescope and naked eye a bright white object moving slowly on a southwest heading at 30,000 feet. Shortly afterward a mass of white material (evidently so-called "spit hair") dropped from 10,000 feet for 39 minutes.

Another NICAP member just ending active AF duty has requested Air Force permission to release a sighting which took place at an AF base in this country.

Previously, he states, he was refused permission to release an Air Force filter report on a UFO formation. Air Force approval or denial of his request will be made public, with all possible details.

For the information of members, NICAP Confidential Bulletins are not intended to be released to nonmembers. In particular these bulletins should not be distributed to the press or radio. Items contained therein are to keep members informed of NICAP's progress and of projects being undertaken. When indicated, complete stories will appear in the **UFO INVESTIGATOR** for general release after full evaluation.

## NICAP ASKS AIR FORCE FOR MISSING UFO MOVIE FRAMES

As authorized by Air Force Regulation 200-2, NICAP has asked for the release of the missing frames from color movies of four UFOs taken last December which an Air Force spokesman now claims were "positively identified" as balloons.

This Air Force claim is a surprising reversal. Earlier two Air Force spokesmen in California had endorsed the film as the best UFO pictures they had seen and had commended the owner of the film for submitting it to the Air Force.

The facts are as follows:

On December 1, 1957 at about 3 p.m. Ralph Benn of Los Angeles, using a 3x telephoto lens, took about six and a half feet of Kodachrome film showing four of six objects—resembling those in the Tremonton, Utah film—which made repeated passes over the area.

Benn described the objects as dull white and oval shaped and said they moved slowly west at constant speed. Other passes—one described as "very fast"—were observed by Benn's children.

After contacting a Captain Schaller, Chief of the local AF pictorial branch, Benn agreed to let the Air Force develop the film. Col. Dean Hess, AF Chief of Public Information for the West Coast, later contacted Benn, complimented him for his handling of the case, and said the film "was the best he had seen."

Benn also requested and received written acknowledgement of his film from Captain Schaller. This acknowledgement—a copy of Captain Schaller's letter to ATIC on January 3, 1958—again endorsed the job Benn had done.

In May Major Lawrence J. Tacker, Executive Officer of the Air Force Public Information Division, officially explained the UFO:

"ATIC evaluated the film and the objects were found to be cluster type weather balloons."

The original film, returned to Benn, showed horizontal scratch marks, had been overexposed, and a few frames had been removed.

**NICAP Comment:** Judging by past Air Force handling of UFO films (for example, the Ralph Mayher films reported in past issues of the **UFO INVESTIGATOR**) those frames obviously were the clearest ones.

Now that the objects allegedly have been positively identified, there is no reason for withholding the missing frames. AFR 200-2 states: "...it is permissible to inform news media representatives on UFOs when the object is positively identified as a familiar object."

NICAP has written a letter requesting an examination of the missing pictures.

## UNIVERSITY OF ARIZONA SCIENTIST INVESTIGATES UFO REPORTS

As a result of the recent Tucson sightings, Dr. James E. McDonald, Director of the University of Arizona's Institute of Atmospheric Physics, has begun a scientific investigation of UFOs.

More than 50 witnesses privately described sightings of mysterious objects to Dr. McDonald after he urged observers to give him detailed reports.

"There is no doubt about their veracity," Dr. McDonald told the Arizona REPUBLIC. He said the observers talked freely with him, though they declined to be quoted in newspapers for fear of ridicule.

**NICAP note to members:** Probably thousands of UFO witnesses keep silent, fearing ridicule. If you know of any hidden reports, please urge observers to send us details with permission to use their names. Although limited magazine space prevents immediate publication of most reports sent in, they form an important part of a NICAP project—a detailed report of UFO evidence for members of Congress, the press, and broadcasters.

## NO NICAP AGENTS

Complaints reaching NICAP indicate that some groups or individuals are claiming to be NICAP agents and some apparently are reselling their own copies of NICAP publications. If members know of any abuses of this sort, please inform us.

No individual or group has been authorized to accept NICAP memberships or to sell subscriptions to **UFO INVESTIGATOR**. This of course does not apply to the legitimate promotion of NICAP by its members. Anyone desiring information about NICAP membership or the **UFO INVESTIGATOR** can be given the pertinent facts or be referred directly to us for free NICAP material.

**THANKS** to the many members sending us newspaper clippings of UFO sightings and related developments. In forwarding clips, please note the date and the name of the newspaper, if this is not a part of the clipping.

## MEMBER IDEAS ON PROMOTION

NICAP welcomes suggestions for promotion of new memberships and publicity regarding NICAP's work. Some very helpful member projects have been sending names and addresses of interested people, advertising in local papers, and writing letters to Congressmen asking for public hearings on the UFO problem. All ideas of this sort will receive prompt attention.

## U. S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U. S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

1 Day      DEC Month      57 Year

2. Time of day: 5:25 5:30

Hour Minutes

(Circle One): A.M. or P.M.

3. Time zone:

(Circle One):  
 a. Eastern  
 b. Central  
 c. Mountain  
 d. Pacific  
 e. Other \_\_\_\_\_

(Circle One):  
 a. Daylight Saving  
 b. Standard

4. Where were you when you saw the object?

[REDACTED]  
 Nearest Postal Address

ENGLEWOOD

City, Town

01410

State or Country

Additional remarks: [REDACTED]

5. Estimate how long you saw the object.

Hours 4-5 Minutes

Seconds

5.1 Circle one of the following to indicate how certain you are of your answer to Question 5.

- a. Certain  
 b. Fairly certain  
 c. Not very sure  
 d. Just a guess

6. What was the condition of the sky?

(Circle One):  
 a. Bright daylight  
 b. Dull daylight  
 c. Bright twilight

d. Just a trace of daylight  
 e. No trace of daylight  
 f. Don't remember

7. IF you saw the object during DAYLIGHT, TWILIGHT, or DAWN, where was the SUN located as you looked at the object?

(Circle One):  
 a. In front of you [REDACTED]  
 b. In back of you  
 c. To your right

d. To your left  
 e. Overhead  
 f. Don't remember

COMMENTS (Use reverse, if necessary)

AFCIN-4E4/Capt. Gregory/ac  
Ext. 6-9216/Bldg. 828

1. Reference is made to letter addressed to your office from the National Investigations Committee on Aerial Phenomena, Washington, D. C., dated 1 July 1958, copy to this Center for comment. This is our reply.
2. In rebuttal to the above subject the following points are outlined:
  - a. Colonel Hess, Chief of the OIS, Hollywood, California, made an exact copy of the Benn Film when it was submitted for his review.
  - b. The film submitted to ATIC, through SAFIS, was Kodak 8MM film of standard 25 feet length.
  - c. The copy made by Col. Hess during all interviews with Benn and now in our custody is exactly 25 feet in length.
  - d. Examination reveals no cuts, splices or alterations.
  - e. The images of alleged UFOs are on a part of the film approximately  $4\frac{1}{2}$  feet in length and are all here on file; technically, the first 55 frames, or 9 inches, indicate nothing. The next  $4\frac{1}{2}$  feet contain the alleged UFOs. The balance of approximately 20 feet contains various and sundry scenes, persons, etc.

3. Therefore, legally:

a. If we have exact copy of the film as given to Colonel Hess, reproduced there in his California photo lab, and "our" copy shows no splices, cuts, etc. - - [redacted] himself or others must have made the cuts -- after it was received back from the Air Force.

b. Mr. [redacted] should be asked to show the alleged "clipped strips" to the Air Force, or

c. A copy of our copy could be made for [redacted]'s retention to show him that the "UFO strip" is still intact to do whatever he wishes, advertise it, sell it, show to the public, or,

d. Have Colonel Hess invite him down and ask him to lay out his film alongside the Air Force copy -- and compare them, with Colonel Hess requesting a statement in writing that the "UFO strip" is still intact.

4. The 8MM reel was examined under magnification by both Major Buckmaster, Chief, Photographic Branch, ATIC and Captain Gregory on 23 December 1957, the date of receipt. There was no UFO report or data with film other than that it was taken near Montebello, California on 1 December 1957. All concurred that the objects, which were rather faint and at some distance, were balloons, and probably a balloon cluster.

5. Attached are thermofax copies of a balloon cluster being launched by a western university having an Air Force contract. Mr. [redacted] and Mr. [redacted] should compare these with the alleged UFOs on the film strip.

6. In the opinion of this Center this is another of the many charges made by those who apparently do not know (and actually only a few know, or are told) that the Air Force (now) makes a duplicate of all photos and movies.

1 Incl:

Thermofax cys of  
Bln Photo - 2 cys

CHESTER H. LONG Lt. Colonel, USAF  
Executive, Air Technical Intelligence Center

Memo for File:

27 Dec 57

Original film rec'd in Center day before  
Christmas 1957 with report for a "Flash Analysis"  
and return of film to HQS USAF (Case of Major  
Tucker SODS-3). Plan carried to ATIC by Mr. [REDACTED].

This was done.

However, problem was complicated in that no  
report giving locations, azimuths, altitudes, circumstances,  
etc., etc. that normally would be given with any UFGO  
report. Only, the two film receivers.

Film sent to Washington as no copies of  
8 mm film could be made here.

The case was badly handled, and in fact, botched. Col.  
Mitchell is apparently unaware that ATIC and the AISS (a  
cover)

detachment which was nearly) are responsible for UFO cases - not the OIS and ORO people. In fact, USAF Intelligence has been trying to get the OIS people out of intelligence (particularly UFO matters) for the last 12 years, Ref. Briefs to <sup>the</sup> ~~asst~~<sup>Secy of Defense</sup>, Study to Gen. Lewis, Briefs to Mr. Wagner, 50 FCS, etc.

Others should also be made aware that 95% of the UFO hoaxes are from Stanton Delaplane; that they are a Federal Offense; that praising people who bring him UFO stories and films is contrary to USAF intelligence policies; that OIS people cannot conduct <sup>bogus</sup> interviews or investigations - as was done in this case.  
In brief, the matter was handled badly.

Signed:

George T. Bekey  
Capt USAF  
9 Feb 1968

COMMENTS: ██████████ ALLEGED UFO  
Montebello, Calif  
1 December 1957

1. Looks like two pairs of balloons.
2. Move in unison - keep same distance.
3. Film too short and slightly out-of-focus and over-exposed.
4. Because of three (3) above, with very limited data (no exact azimuths, bearings, directions, elevations, etc.) very difficult to make a sound.
5. Review of letter, with the "chips on his shoulder" attitude, plus the obvious attempt to make a "big project" out of 5 seconds of film - strongly suggest that he knew what the objects were. Can't prove it though.
6. Enlarged to motion-picture screen size: Reviewed by Lt. Col Whitcher, Sgt. Bolieu, and Capt Gregory in UFO Project Room.

ts

tified the noise as a sonic boom but added: "All other information about it is classified."

He said he saw no connection between the boom and the unmarked balloons. He ordered an Air National Guard

unit to take charge of plastic objects and try to identify them.

The balloons were not identified immediately. The weather bureau said they weren't theirs: Weather balloons are filled with helium or hydrogen, a spokesman said, neither of which has an odor.

As for the boom, the Strategic Air Command headquarters at Omaha said it had no

national missile units in the area.

Other missile centers in Southern California and New Mexico—as well as the Defense Department in Washington—said there was no missile firing yesterday.

The balloons, of clear plastic, were about four feet long and 18 inches in diameter. They were bound together, Engh said, with firecracker string

and had a blue paper-like material, somewhat like rice paper, between them. They carried no markings or instruments.

10 Feb 1958  
Max J. Gandy, Jr.  
called on Mr. Ancis  
for Mr. Cpt.

- Sir:
1. This case was handled horribly!
  2. The last people who should attempt to conduct UFO investigations and/or analysis are the public relations people.
  3. Yet, here we have the Chief of the Hollywood 615, conducting interviews of a man who is antagonistic towards the H.A.F. and obviously a publicity seeker - with his words made up (see his ltrs).
  4. The matter was compounded by Col. Hess's statement ("

8. IF you saw the object at NIGHT, TWILIGHT, or DAWN, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight — pitch dark
- d. Don't remember

9. Was the object brighter than the background of the sky?

(Circle One):

a. Yes

b. No

c. Don't remember

10. IF it was BRIGHTER THAN the sky background, was the brightness like that of an automobile headlight?:

(Circle One) a. A mile or more away (a distant car)?

b. Several blocks away?

c. A block away?

d. Several yards away?

e. Other

11. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?

Yes

No

Don't Know

b. Suddenly speed up and rush away at any time?

Yes

No

Don't Know

c. Break up into parts or explode?

Yes

No

Don't Know

d. Give off smoke?

Yes

No

Don't Know

e. Change brightness?

Yes

No

Don't Know

f. Change shape?

Yes

No

Don't Know

g. Flicker, throb, or pulsate?

Yes

No

Don't Know

12. Did the object move behind something at anytime, particularly a cloud?

(Circle One): Yes

No

Don't Know.

IF you answered YES, then tell what

it moved behind:

13. Did the object move in front of something at anytime, particularly a cloud?

(Circle One): Yes

No

Don't Know.

IF you answered YES, then tell what

it moved in front of:

14. Did the object appear: (Circle One):

a. Solid?

b. Transparent?

c. Don't Know.

15. Did you observe the object through any of the following?

a. Eyeglasses

Yes

No

e. Binoculars

Yes

No

b. Sun glasses

Yes

No

f. Telescope

Yes

No

c. Windshield

INTERVIEW WITH 256

222-19112-158-100-3 100-3

INSTRUCTIONS FROM OFFICE OF THE SECY OF THE AIR FORCE INFORMATION SERVICES DIVISION TO MAKE AN IMMEDIATE ANALYSIS OF FILM AND RETURN IT TO THAT OFFICE. FILM RETURNED TO MAJOR WAGNER, SAFIS, HEADQUARTERS USAF ON MORNING OF 23 DEC 57.

WOULD HAVE LIKED TO HAVE RETAINED FILM FOR SUFFICIENT TIME TO REPRODUCE IT IN ACCORDANCE WITH POLICY TO HAVE A COPY OF ALL PHOTOS AND FILM ON UFOS TO INSURE AGAINST FUTURE CLAIMS, ALLEGATIONS OR OTHER ISSUES.

MY ANALYSIS, CONFIRMED BY INDEPENDENT REVIEW BY PHOTO ANALYSTS, IN BRIEF - OBJECTS ARE FLOATING IN ALL FRAMES. THEY KEEP THE SAME DISTANCE AND POSITION TO EACH OTHER /ALTHOUGH THE WHOLE GROUP SEE-SAWS BACK AND FORTH/, AND GIVE ALL THE APPEARANCES OF BEING BALLOONS ON SOME TYPE OF RIGID FRAMEWORK.

MORE FIRM CONCLUSIONS COULD HAVE BEEN PROVIDED IF A REPORT ON THE BACKGROUND, FACTUAL DATA AND INFORMATION, AND THE CIRCUMSTANCES WERE SUBMITTED TOGETHER WITH THE FILM PER AFR 200-2.

WILL CONTACT MR WAGNER, SAFIS, AT HQ USAF AND NOTIFY YOU OF RESULTS

SUBJECT: (U) Request for Review and Comment - UFO Motion Picture Film

TO: AFCIN-4E4 . . . FROM: AFCIN-4A2f

DATE: 24 Dec 57 COMMENT NR 2  
Maj R. M. Buckmaster/11  
Ext 5-9196/Bldg 263/E-N

1. Film referred to in Comment 1 has been reviewed and the following facts have been analyzed:

a. Objects in question appear to be real and it is believed they are four balloons attached to each other.

b. Objects are at a great distance from photographer and the distance became greater as objects were photographed.

c. The objects appear to be floating and retain throughout the film, basic relationships to each other and appear to rotate in the relationship clock-wise.

# DISPOSITION FORM

SECURITY CLASSIFICATION (If any)

FILE NO.	SUBJECT		
	(U) Request for Review and Comment--UFO Motion Picture Film		
TO AFCIN-4A2F ATTN: Maj. Buckmaster	FROM AFCIN-4E4	DATE 23 Dec 1957 4E4/Capt. Gregory/dn 69216	COMMENT NO. 1

1. Reference conversation between Maj. Buckmaster and Capt. Gregory, Saturday night, 21 December 1957, regarding a UFO film that Gen. Watson was informed would be submitted to this Center for immediate review and comment.
2. Request study of subject film, with detailed comments as to the nature of the objects purported to be UFOs. The detailed report attendant to this case has not arrived as yet, but a brief TT message regarding the general circumstances surrounding the matter is attached.
3. The fact that the film was submitted directly to the PIO Office in Hollywood, rather than directly to Headquarters USAF or ATIC is considered significant. Reference our recent discussions concerning the soon-to-be-released report (to AFCIN) that approximately 85% of UFO hoaxes submitted are from Southern California.
4. Hq. USAF has telephonically requested that it be notified immediately of our findings with regard to this film.

*for Walter H. Byrd*  
HENRY A. MILEY  
Chief, Air Sciences Division

2 Incl

1. Roll film
2. Cy TT Mag

*Pentagon called at 1430 hrs. — want some info. on us by 8:30 a.m. tomorrow.*

16. Tell in a few words the following things about the object.

a. Sound none

paper cut at same time

b. Color red glow right) shade of red

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

18. The edges of the object were:

- (Circle One):
- Fuzzy or blurred
  - Like a bright star
  - Sharply outlined
  - Don't remember

e. Other faded out -  
bright - faded - etc.  
double object between  
glow out

19. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_.  
 Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

*out of my station*

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.  
feet.

*couldn't*

22. How large did the object or objects appear as compared with one of the following objects held in the hand and at about arm's length?

(Circle One):

- a. Head of a pin
- b. Pea
- c. Dime
- d. Nickel
- e. Quarter
- f. Half dollar

- g. Silver dollar
- h. Baseball
- i. Grapefruit
- j. Basketball
- k. Other

*shirt button*

*jet at 35-40,000 ft*

- 22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22.

- a. Certain
- b. Fairly certain

- c. Not very sure
- d. Uncertain

23. How did the object or objects disappear from view? \_\_\_\_\_

\_\_\_\_\_

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

25. Where were you located when you saw the object? (Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane
- e. At sea
- f. Other \_\_\_\_\_

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Flying near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other \_\_\_\_\_

27. What were you doing at the time you saw the object, and how did you happen to notice it?

*transferred to look out window  
(watch satellites as hobby + space watching).*

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

28.2 How fast were you moving? \_\_\_\_\_ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes                          No

29. What direction were you looking when you first saw the object? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

30. What direction were you looking when you last saw the object? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North \_\_\_\_\_ degrees.
- b. From horizon \_\_\_\_\_ degrees.

31.2 When it disappeared:

- a. From true North \_\_\_\_\_ degrees.
- b. From horizon \_\_\_\_\_ degrees.

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds
- e. Don't remember

34.3 WEATHER (Circle One)

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

34.2 WIND (Circle One)

- a. No wind
- b. Slight breeze
- c. Strong wind
- d. Don't remember

34.4 TEMPERATURE (Circle One)

- a. Cold
- b. Cool
- c. Warm
- d. Hot
- e. Don't remember

35. When did you report to some official that you had seen the object?

Day

Month

Year

1 Dec

1800

36. Was anyone else with you at the time you saw the object?

(Circle One) Yes      No

36.1 IF you answered YES, did they see the object too?

(Circle One) Yes      No

36.2 Please list their names and addresses:

2 children  
3 + 9 (boy)

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes      No

First time blue light (large)  
then went out

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

blue sparkle thrown in air  
between hill + Englewood EW. 3 AM  
Somebody reported this to me  
Pete Minnick

38. In your opinion what do you think the object was and what might have caused it?

met it last few days

39. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate?

horizon horizon  
3-4 minutes m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was?

35,000 up feet.
